25 September 1962

BRIEFING MEMORANDUM FOR THE DIRECTOR

SUBJECT: Possible Use of FIRE FLY Against Cuba

1. At the Special Group meeting on 20 September, the possibility of using FIRE FLY against Cuba was discussed. Subsequently, the DDCI assigned the responsibility for studying this concept to the CIA representative of the NRO.

2. A study is now being conducted within the Air Force, for the NRO, on the possible use of FIRE FLY as a photographic drone over Cuba.

3. These two studies will be combined by the DNRO for possible presentation, at least in concept if not in detail, to the Special Group on 27 September 1962.
